

Community Based Vaccine Outreach Program Reporting Module - Community Profile Form - General Outreach/Education

OMB Number (0906-0064)

Expires: 01/31/2022

Public Burden Statement: The purpose of this data collection system is to collect aggregate data on activities supported through HRSA's Community-Based Vaccine Outreach Programs (HRSA-21-136 and HRSA-21-140). HRSA will use these data to monitor the supported activities by awardees related to (1) building a public health workforce and (2) how that workforce is leveraged to increase vaccination rates and equitable access to vaccines, to ensure that the most vulnerable populations and communities are reached and vaccinated throughout the period of performance. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection is 0906-0064 and it is valid until 01/31/2022. Public reporting burden for this collection of information is estimated to average .27 hours per response, including the time for reviewing instructions and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N136B, Rockville, Maryland, 20857 or paperwork@hrsa.gov.

Instructions: The information that you collect about the people you serve is very important and helps HRSA better understand how to get more people vaccinated for COVID-19. This information, and the work you that are doing, can help to save lives!

There are a total of 13 questions in this form. We ask that you make sure everything is filled out as honestly and as completely as possible.

Thank you very much in advance for your help in providing this important information!

* 1. This section is for you (the community outreach worker) to fill out when you interact with a member or members of the community to help encourage them to get vaccinated for COVID-19. Please note that a different form (not this one) should be used at actual vaccine sites.
